

Mogu (Mogoo) Arrow Construction

Use rabbit blunts or blunt the shaft with a penny or other solid disk. Wrap the shaft in a layer of closed cell foam.

Mogu (Mogoo) Arrow Construction

Wrap the shaft in a second layer of closed cell foam to bring the diameter up to 2 inches.

Mogu (Mogoo) Arrow Construction

Tape one to two disks of foam on top of the blunt to provide enough padding. Metal blunts will need more padding than rubber.

Mogu (Mogoo) Arrow Construction

Secure with tape. Do not
compress the foam.

Mogu (Mogoo) Arrow Construction

Cover with a fabric head
cover and enjoy.
