Description:

Randy Nordell **Microsoft® Office 2013: In Practice**
Topic, Instruction, Practice!

McGraw-Hill's **Microsoft® Office 2013: In Practice** offers a fresh, new approach to teaching today's students Microsoft® Office skills by clearly introducing skills in a logical sequence: 1) **Topic** 2) **Instruction** and 3) **Practice**. Nordell's **T.I.P.s approach builds a foundation for success by**

helping students practice what they learn, and provides transferable skills that allow students to grasp critical thinking beyond the textbook assignment.

In Practice seamlessly integrates with SIMnet Online, McGraw-Hill's online learning and assessment solution, which has 1:1 content to help students practice and master computing concepts and Microsoft® Office skills. **In Practice** projects in SIMgrader allow students to practice their skills in a live Office application. Students receive immediate feedback upon completion of these auto-graded projects. The integration of **In Practice** with SIMnet helps to meet the diverse needs of students and accommodate individual learning styles.
